

# Learn in Demo App

The app available in your account live shows the most basic parts of the Mobsted platform. It often makes sense to click around by yourself to learn how things work. Here is how to use it.

Open the app

Mouse over and click it. Or press MENU > CONSTRUCTOR

## Making sense of screens

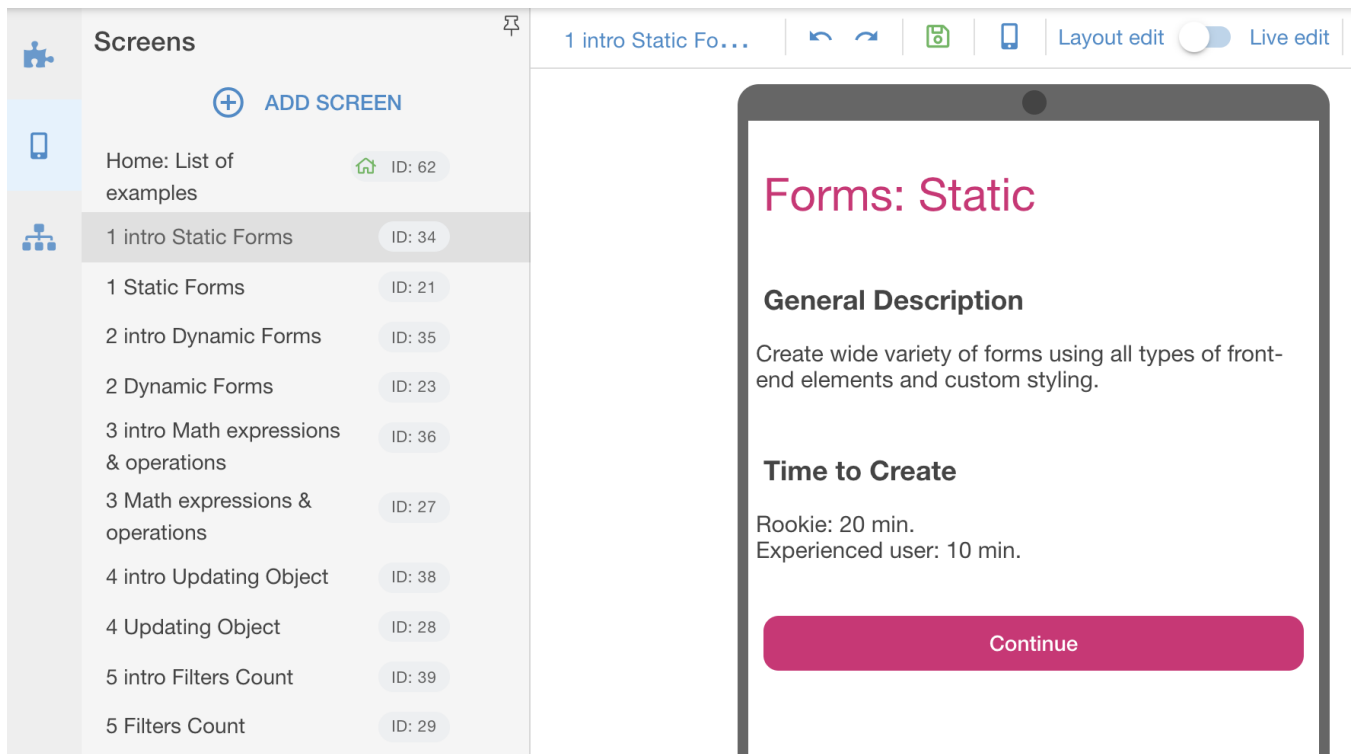

Press Screens on the left panel. Each example has two screens. For example, "1 Intro Static Forms" and "1 Static Form".

List of examples		
When you are in Mobsted backend - a screen number with a name is where the example is made. Ignore all "Intro" screens.		
	1. Static Forms	>
	2. Dynamic Forms	>
	3. Math expressions & operations	>
	4. Updating Object	>
	5. Filters Count	>
	6. Filters Iterate	>
	7. Create Event	>
	8. Operation Loop Screen	>
	9. Water delivery	>

## Making sense of how it all works

1. Select any Intro screen and read what the sample is all about.

2. Select the non Intro screen with the same number (GREEN), select any of the components on the screen (BLUE) and view how it is set up on the right (ORANGE)
