

2021, 05 (May) - MAJOR - Account Security

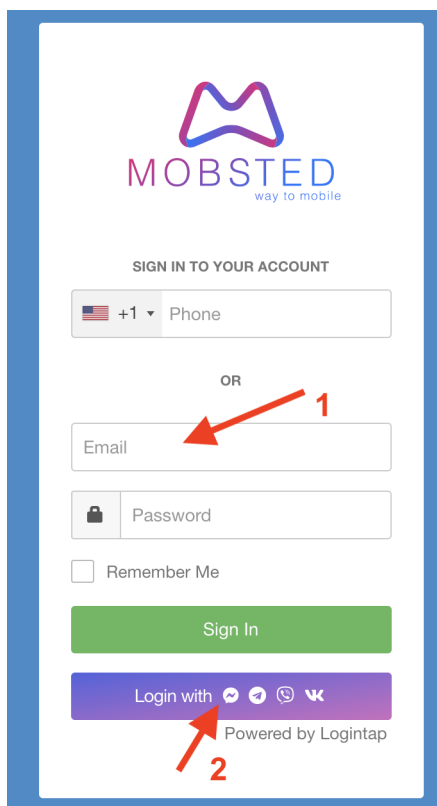

This update was released on May 25th

We have just added a new way to login into your Mobsted accounts. Secure and easy, using only your email and your mobile phone as a second factor.

When in your Mobsted account home page:

1. Press Login with Messenger in the top right corner
2. Select a messenger where you want to confirm your logins
3. Snap a QR code with your mobile device, where the messenger is installed, and follow the link
4. When in messenger - Start the connection with the button you will see
5. That's it

The next time you log in to the Mobsted account - enter your email (step 1) and press the Login with Messenger button (step 2):

The image shows the Mobsted login interface. At the top is the Mobsted logo with the tagline 'way to mobile'. Below it is the heading 'SIGN IN TO YOUR ACCOUNT'. There are two input fields: 'Phone' (with a country code dropdown set to '+1') and 'Email'. A red arrow labeled '1' points to the 'Email' field. Below the 'Email' field is a 'Password' field with a lock icon. There is a 'Remember Me' checkbox. A green 'Sign In' button is below the password field. At the bottom, there is a purple button labeled 'Login with' followed by icons for WhatsApp, Telegram, Messenger, and Viber. A red arrow labeled '2' points to this button. Below the button, it says 'Powered by Logintap'.

You will get the confirmation request in the mobile messenger of your choice.

Now, you do not need to remember passwords, or insecurely store these at your computer.
